

AUGUST 2022

Dear colleagues,

We are very pleased to invite you to [Sustainable Places 2022](#) where all three of our projects will be presented together in the "Off-Site Plug-and-Play Prefab Systems" workshop.

The 10th annual edition of Sustainable Places will be a **hybrid event**, from **6th to 9th September 2022** with the in-person sessions hosted in **Nice, France**.

The scope of the event is captured directly in its name. Sustainability targets and climate change objectives in buildings and the built environment at the building, district and urban scale including the transport and energy infrastructures.

If you are interested in participation, you'll find registration [here](#).

The three projects will participate in an Off-site Plug-and-play Prefab Systems hybrid workshop, on the 8th of September, 9:00 - 12:15. The workshop is organized by the coordinator of the PLURAL project, Maria Founti.

The seven projects that take part in the workshop develop such hybrid Plug-and-Play systems. They come together to exchange experiences and map the technological challenges for the adoption of the developed technologies.

8th of September 2022
9.00 - 12.15 CET
