

INTRODUCTION

The European Research & Innovation project **PLURAL**, funded by the Horizon 2020 programme aims to design, validate and demonstrate a palette of versatile, adaptable, scalable, off-site prefabricated **Plug-and-Use kits**.

The overall goal is to **reduce energy consumption and emissions** in different types of buildings with varied climate and social-economical conditions.

TIMELINE

PROJECT CONSORTIUM

The **PLURAL** project is based on the international cooperation of **18 partners** from **7 European countries** (Greece, Spain, Germany, Czech Republic, Italy, Switzerland, and Luxembourg) assembled in a consortium to reach their common goal.

PROJECT NEWS

Website

We are happy to present the **PLURAL website** designed by **FENIX TNT**. You can read more about the project, demo sites, news, events and you can find project documents, gallery, and videos.

Promo materials

In addition to the logo design and brand manual, we have designed a set of promo materials! Check out the **website** to download the project brochure, leaflet, roll-up poster and presentation!

Watch our graphical video explaining the **PLURAL** project.

COOPERATION

Cluster projects

We are happy to announce, that we agreed on cooperation with the following projects: **ENSNARE** project, **INFINITE** project, **POWERSKIN+** project, and **SWITCHSAVE**.

Research portals

PLURAL is now an official member of the **ECTP**, **Build UP**, **EU Agenda** and **Construction21** community! These portals focus mainly on energy-efficiency in buildings, but their area of interest is much wider. It's a great source of information related to European research and innovative projects, so make sure to check them out!

RECENT EVENTS

Kick-off meeting

The project consortium has met for the first time online on 13th October 2020, to kick-off the project and discuss the project goals to ensure that the project is on track from the very beginning.

Webinar - SMART Built4EU

The Smart buildings webinar was organized by the **SmartBuilt4EU** project. **PLURAL** was presented by project coordinator Prof. Maria Founti from NTUA.
